

**INFALLIBLE RULES
FOR MEASURING CORN IN THE
CRIB.**

If measured in feet;

1st. Shucked Corn.—Measure the length, width and depth of the crib in feet; multiply these three dimensions together and their product by 8; then cut off two figures to the right; those on the left will be so many barrels, and those cut off, so many hundredths of a barrel.

2d. Unshucked Corn.—Multiply the three dimensions in feet as in Rule 1, and their product by 5; cut two figures to the right and the result will be barrels, and hundredths, as in Rule 1.

If measured in inches:

3d. Shucked Corn.—Take the dimensions in inches and multiply them together; take one half of the product, and divide it by 2150; and you have the bushels of shelled corn, which divide by 5 to reduce to barrels.

4th. Unshucked Corn.—Multiply the dimensions as in Rule 3, and then take one-third of their product, and divide it by 2150, the result will be as in Rule 3.

These Rules have often put to the most critical test by the most thorough as well as the most practical mathematicians of the southwest, and the people using them, may rely upon their being necessarily correct. Preserve a copy for future use.

Paying dear for good company—as the jay said when he was made part of a dainty pigeon-pie.

Always remember that you dress to fascinate others, not yourself.

**SUSPENDER
B R A C E S**

Braiding the Shoulders, strengthening the body, expanding the chest, strengthening the lungs, and preventing Consumption, suitable for Ladies, Men and Children.

Why is a bull's tail like the letter F?—kaze it's the end of the beef?

They have a fast operator in Arkansas—he cuts up clover and hay and sells it for black tea.

The less beard a man has the more ambitious he is to raise whiskers. Show us a chap with sixteen hairs on his chin, and we will bet a hat that it will not be many minutes before he is affectionately feeling for them.

A very poor look out—a jail window.

JUST RECEIVED.—One of the prettiest and best Sewing Machines ever brought to Winchester. It is at our office.

And while talking about Sewing Machines let us state a fact: A gentleman in Nashville, not long ago, bought the right to manufacture and sell those cheap, \$30 machines in West Tennessee, and by the operation lost about \$3000. The machine was a "take in."—Now, if you want a good machine and a sure enough cheap one, call on W. J. Slatter.

**THE JOURNAL
ONLY COSTS
per year!**

Send your names to

W. J. SLATTER,

Winchester.

TO OUR SUBSCRIBERS.—We are going to ask a favor, one that can be bestowed very easily. Now, it is no *duo*—you never hear us do that. Most of subscribers are very punctual, and we are proud of them. In fact, we'll venture the assertion that better paying subscribers can't be found on the books of any other publisher.—But we want more of the "same sort." And now for the favor—Let every subscriber to the Journal send us one additional—just one. Now, you can easily do it, will you not? You have friends, go to them and present the claims and merits of the paper; show them how nicely it is printed, how large it is, and how much original matter it contains, &c. Surely you can obtain one subscriber additional; we know you can if you will try. Every person who takes the Journal is appealed to, the ladies especially.
